SEARCH

Inspection of representation of Trade Marks may, on payment of the prescribed fees, made at the Trade Marks Registry, between 9:00 a.m. to 3:00 p.m. Monday to Thursday (Except Friday from 9:00 a.m. to 1:00 p.m.).

APPLICATION NUMBERS

In each advertisement the number stated before the specification of goods indicates the number of the application.

OPPOSITION

Notice is hereby given that any person who has grounds of opposition to the registration of any of the marks advertised herein according to classes under the heading "Application Advertised before Registration" may, within two months from the date of this Journal, lodge Notice of Opposition on Form T.M-5 accompanied by the prescribed fee of Rs.6,000/-.

The period for lodging Notice of Opposition may be extended by the Registrar if he thinks so and upon such terms as he may direct.

Request for extension of time shall always bear the reference the name of prospective opponent and the number of Trade Marks, if any, to be made basis of opposition.

It is desirable that formal opposition should not be lodged until notice has been given by letter to the applicant for registration, so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice may be taken into account in considering any application by an opponent for an order of costs if the opposition is uncontested by the applicants.

NOTIFICATION

It is notified for general information that Form TM-1, must be completed in all respects and informations asked for must be provided. Instructions for Completions of TM-1, given on this form in the Rules should be followed. The instruction at (f) and (g) relating to user and signature are clear and noncompliance leads to over work for the Trade Marks Registry and un-necessary delay for the Applicants. Incomplete forms will not be received, and if received by POST will not be examined at their turn, till they are complete in all respects.

EXTENSION OF TIME

2. It has been observed that in opposition and Rectification cases, both the parties or their Agents/Advocates make requests on Form TM-56 for Extension of time, which are liberally granted to the parties. This practice not only delays the disposal of cases, but also results in accumulation of work. In order to discourage this practice, it is notified for general information that no unnecessary extension of time will be allowed except substantiated by cogent and convincing reasons and that mere collection of data or compilation of paper would not be sufficient reasons for asking such extension. All concerned should note and cooperate for early disposal of contested cases. Besides requests for extension of time in opposition cases must be accompanied by valid power of authorization, without which such requests are liable to be treated as un-authorized.

AUTHENTICATION OF FOREIGN DOCUMENTS AND POWER OF ATTORNEY.

3. It is notified for general information that all Foreign Documents and the Power of Attorneys shall be executed before, and authenticated by a Notary Public, or any Court, Judge, Magistrate, Consul or Vice Consul, or Representation of the Central Government as enumerated in Section 85 of the Evidence Act.

Application No: 397540

Class: 9

Goods or services: 9 Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electrical conductors, electric switches, electrical transformers, electrical accumulators, electric regulating apparatus and control panels (electricity); apparatus for recording, transmission or reproduction of sound or images, namely, apparatus for sound recording, video recorders, telecommunication transmitters, audio and video players and recorders; magnetic data carriers, recording discs, namely, sound recording discs; sound recording carriers; magnetic encoders; encoded magnetic cards; magnetic data media; and mechanisms for coin operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; computers and computer software; rheostats; amplifiers; electric relays; electric heater cyclers for cycling control systems; photocells; vibrators used in inverter circuits; temperature, pressure, humidity, time, liquid level, and flame responsive control valves; potentiometers; thermostatic regulating and controlling switches; pyrometers; tachometers; operation-recorders for software applications; thermometers not for medical purposes; watt meters; voltmeters; electrical measuring and indicating instruments namely, ammeters, ohmmeters, meter testing instruments, elapsed time meters, galvanometer type on-off indicators; galvanometer type relays and galvanometer type motors; bridges; resistance standards; galvanometers; photoelectric

colorimeters; magnetic permeameters; short-turn coil testers; calibration and test equipment for precise measurement of resistance, voltage, color, gas and volume; flow meters; gas-analysis instruments and automatic signaling instruments for indicating certain temperatures, pressures and vacuums, speeds, fluid flows, and analogous quantities; radiant energy measuring instruments; electric telemetering apparatus; transducers; recording devices, namely, devices for recording and analyzing data for energy management and for regulating plant and building efficiencies, devices for collecting data to make recommendations for the supervision of field equipment, oscillographs; photographic equipment and accessories, including cameras, lenses, projectors, electronic flash equipment, exposure meters, filters; thermocouple operated controls, recorders and indicators; flight test recorders; signal converters comprising an air speed, altitude and/or position responsive sensors for operating switches; scanning systems comprising a signal generator and a receiver for reflected signals from the generator for locating objects; circuit cards for generator control units and regulators; emergency locator transmitter beacon for use in commercial, military and general aviation; window heat controls (sensors); fuel controls (sensors); actuators used for software-based machines; valves [electromagnetic switches]; sensors; gyroscopes and accelerometers for use in land, aircraft, space, and marine navigation ground proximity warning systems; radar altimeters and systems comprising radar transmitters, receivers, antenna and indicators; applications integrating communications and navigation and a global position system (GPS); applications integrating an inertial navigation system and a global positioning systems (GPS); inertial navigation systems; automatic test equipment for avionics components; flight control systems and its component parts thereof (including computer software and hardware); flight management systems (including computer software and hardware); cockpit displays; burglar, fire, smoke, gas, intrusion and motion detection apparatus and electric controls therefore; generators, transmitters, receivers and processors of electrical signals; electric transmission line security and fault monitors; electrical, structural and mounting parts for the foregoing; nurse call systems for hospital use, sprinkler supervisory systems, watchman service systems and other plant supervisory and security systems, closed circuit audio-communication and signaling systems, industrial process monitoring and control systems, data logging systems, parts of all such systems, code transmitters and receivers and parts thereof; fire alarm systems and burglar alarm systems and component parts thereof namely, fire, smoke and heat detectors, intrusion detection devices, fire, smoke, heat, intrusion and motion sensors; visual and audio components including bells, buzzers, chimes, sirens, gongs, warning lights, strobe lights, loudspeakers and annunciator panels, automatic and manual fire alarm controls, control panels, battery chargers, booster panels; magnetic contacts, glassbreak detectors, keypads, electronic controllers, access control cards and card readers; firmware comprised of computer hardware and software embedded therein for use in alarm control; central station fire and burglary alarm receiving and monitoring systems comprised of receivers and customized computer software for use therewith; data processors and computers for arithmetic and control processors and input/output equipment, namely, tape drives, disk drives, keyboards, printers, keypunch units; parts and fittings for all the aforesaid goods; electronic wire and cable for the security, fire, sound, voice and data industries; fiber optic cable; power supply apparatus namely, plugs, sockets, adaptors, switches, push buttons, switch boxes, socket outlets, circuit breakers, circuit protectors, fuse boxes, junction boxes, fuses, terminals, terminal blocks, outlet plates and electrical conductors; apparatus for detecting the presence of electricity; digital control instruments for use in the supervision, checking, operation and control of lighting, heating, cooling, ventilating and air conditioning of buildings; sensors and computer software for use with the aforesaid goods; electric door chimes, electric door bells and electric door pushes; electric transformers for use with the aforesaid goods; batteries and battery cells; uninterruptible power supplies; electric trip-release and trip-delay devices for valves, electrical signal switches for use with such trip-release devices, spark ignition plugs and terminals, electric transformers, and flame-sensing electrodes for gas burners; fuel control regulators; electronic valve actuators and controls; burner and pressure controllers for industrial furnaces; calibration equipment used to verify the accuracy of flow meters; fluid measuring equipment, namely, flow meter provers, density meters, and data collection and processing equipment for flow meter provers in the petroleum and chemical industries; measuring apparatus for storage tanks and parts and accessories to the aforesaid goods; computer programs for use in achieving compliancy with health and safety laws and regulations, mainly the occupational, health and safety administration (OSHA), in the field of respirators and work gloves; equipment and apparel for protection against hazards and accidents, namely, respiratory masks for non-medical purposes; respiratory mask filters for non-medical purposes; respiratory mask gas and vapor cartridges for non-medical purposes; self-contained breathing apparatus; safety equipment for use in reduction of noise levels namely, banded earmuffs, and ear protectors for non-medical purposes; protective clothing (clothes) for use by but not limited to emergency responders, medical service providers, firefighters, construction workers, electricians, electrical linesmen, utility

workers, general industrial workers, and outdoorsmen, namely, hats and caps, hoods, jackets, pants, overalls and coveralls, suspenders, coats, leggings, gloves, aprons, shoes and boots; finger cots; traffic safety vests; protective helmets namely, industrial helmets, sandblast helmets, welding helmets, and face shields and parts therefore; visors, helmet liners; welding hand shields; glass sold as a component of welding hand shields; safety masks for protection of face, throat and neck against flying particles, fumes, chemical splash and dust and face shields; welding helmet attachments for attaching welding helmets to a safety cap; safety cap attachments for connecting a welding helmet to a safety cap; safety sealing for light barriers for use in welding helmets; mounting loop attachment for connection of protective masks and eye guards to protective safety caps; protective eyewear namely, goggles, spectacles, eyeglass frames and parts thereof; lenses; lens filters; fall protection equipment, namely, safety harnesses, safety lanyards, safety rope grabs, safety ropes, safety belts, safety fall arrest blocks, safety vertical lifelines, safety anchors, safety tripods, rigid rail tracks and locking sleeves, ladder shields and sets of any combinations of the foregoing; personal protective equipment and live-line electrical tools for electrical workers, namely, hot sticks for working on overhead power lines and trees from the ground, sectional sleeves therefore and insulated tool fittings attachable thereto; electrical perimeter alarms; electrical conductor cleaning brushes; electricity adapters; electrical cables; electrical connectors; electrical fuses and electrical wires; electrical glove inflating apparatus for testing and inspecting rubber gloves; battery terminal jumper clamps and insulated clamps; plastic insulating device, in the nature of electric line covers, temporarily placed over electrical power lines for the protection of electrical linemen; electrical connectors, namely, jumper clamps incorporating a locking ratchet mechanism, which is used by electrical linemen to temporarily connect jumper cables to electrical power lines for the purpose of bypassing an open section of a power line voltage detector and phasing voltmeter devices, voltmeters for measuring voltage and phasing, voltage detectors, phase sequence indicators, voltmeters, voltage indicators, portable testers for personal grounding assemblies, temporary grounds, cluster connectors for cluster grounds, parking studs, shrink tube for terminal connection strain relief, grounding cable, cable terminals, C-clamps, snap on clamps, flat face clamps, substation bus clamps, all angle clamps, tower angle clamps, alligator clamps, bus bar clamps, cut out clamps, ball socket clamps, running rail clamps, power rail clamps, traveling ground clamps, T handle adapters, pin to threaded adapters, eye bolt assemblies, pin to threaded adapters, truck grounding cable reels, ground rods, discharge hooks, ball studs made of metal, ground knobs, ball stud and ground knob covers, ball socket cluster sets, ground cluster sets, grounding clusters, pole bands, truck grounding kits, jumper heads, by-pass jumpers, equipotential grounding sets, and electrical conductors in the nature of 200 amp ground bushings, 200 amp elbow grounding sets, URD grounding assemblies, and 200 amp ground elbows; glove inflating apparatus for testing and inspecting rubber gloves (control/inspecting apparatus); jumper clamps included in this class; coaxial cables; transistors and carbons used in electrical equipments; components of electron and electricity; life-saving instruments; data collection devices, namely, bar code readers, chip card readers and smart card readers; optical readers; mobile computers for scanning and processing bar code symbols; kiosks for electronically providing data for price checking or other communications; electronic transaction terminals for use in aiding retail and financial transactions; image capture devices, namely, digital cameras modules for integration into such devices; radio-frequency identification devices; bar code verifiers; docking stations, data storage devices, and computer printers for use with such devices; smart card readers and magnetic stripe readers for use in transaction terminals and/or mobile computers; batteries, battery chargers, and circuits for use in the foregoing goods; computer software for use with the foregoing goods; component parts for the foregoing goods; and manuals sold as a unit with the foregoing goods; contact and non-contact laser, infrared, and optical bar code and image scanners for industrial, commercial, merchant, distribution, retail, wholesale, warehousing, and manufacturing fields and computer software therefore, sold as a unit; electronic automatic identification and data capture apparatus consisting of a laser beam scanning unit and computer hardware and operating software for determining the size, dimensions and position of packages passing through the scanned laser beam; wireless point of service device in the nature of an electronic sign; automatic identification system comprised of cameras, microprocessors, and computer software, sold separately or as a unit, for reading labels and other identification markings on goods and packaging of goods to facilitate inventory control, tracking, sorting, and/or distribution of such goods; tracking system comprised of computer software and hardware for a bar code scanning system that includes bar code scanners, a package dimensioner, and a conveyor belt tachometer, for correctly identifying and associating each scanned barcode with the package bearing such scanned bar code in the field of automatic identification and data capture; kit consisting primarily of computer software, electrical communication cable, and user manual sold as a unit for use with computer based systems to program operational parameters and performance characteristics of programmable laser barcode

symbol scanners and readers; electronic data storage and image-based data collection systems comprising electronic devices, namely, portable and non-portable microcomputers, bar code and image decoders, readers, scanners and terminals, plug-in memory modules, barcode and image verifiers, batteries, battery chargers, signature capture terminals, magnetic strip readers, check readers, computer printers, radio and hard wired communication devices, namely, mobile data acquisition terminals, Ethernet access devices, namely, access points that connect wired and wireless networks; computer software that enables the user to create software application programs that operate and manage portable data collection devices, and manuals sold therewith as a unit; optical data collection and processing technology, namely, integrated optical electronic circuits and computer software for use in data collection and processing in the field of data collection; optical data collection devices, namely, portable and non-portable wireless and non-wireless readers, imagers, scanners and data entry terminals; electro-optical image engines for use in reading codes and capturing digital images for incorporation into readers, imagers, scanners, and data entry terminals; software programs for optical image decoding and processing; computer software that allows end user to select order of indicia decoding in a data capture and collection device; computer software for parsing bar code data found on government-issued identification and obtained by data capture and collection devices; computer hardware and software providing system control functions for a bar code scanning and parcel tracking system; computer software for integrating bar code symbol scanners into point-of-sale hardware systems in the field of automatic identification and data capture; computer software for use in programming bar code symbol scanners; computer software for use in image capture and decoding bar code symbols; computer hardware and software providing system control functions for a bar code scanning and parcel tracking system; computer software that allows remote management and administration of an end users data capture and collection device; computer software program that allows end users and third party integrators to develop custom plug-ins for data capture and collection devices; gas volume recorders, and gas pressure recorders; protective air purification apparatus and instruments for use in hazardous biotechnology, pharmaceutical, medical, and biopharmaceutical environments; aircraft navigation and landing guidance system comprised of computer software, computer databases, displays, and global positioning information; hardware and software for recording and reporting energy use data; computer software for integration of plant, manufacturing, mining and oilfield equipment and software applications, to monitor operations, track problems, report on operations, optimize plant, manufacturing, mining and oilfield operations and to enable communication between devices or applications used in industry; home and office automation systems comprising wireless and wired controllers and controlled devices for lighting, window shades, HVAC, security, safety and other home and office monitoring and control applications; security equipment sold individually, as components, or together as a system comprising one or more of the following: control panels, keypads, transceivers, transmitters, signal receivers, sirens, audio speakers; sensors and detectors for security, fire protection and home monitoring, namely electronic magnetic contacts, electronic intrusion detectors, electronic glass break sensors, electronic motion sensors, smoke detectors, heat detectors, carbon monoxide detectors, electronic sensors that detect the movement of physical objects, temperature, environmental conditions and water leakage; electronic door locks; thermostats; digital video cameras; digital video recorders; computer hardware for tracking people, objects and pets using GPS data on a device on the tracked people, objects and pets; computer software for monitoring, controlling, and managing security, HVAC, fire, lighting, locks, physical objects, appliances and vehicles; detection and authentication instruments using light sources and light detectors for detecting and identifying chemical substances; Protective equipment against falls in climbing sports, namely, harnesses, belts, descenders, lifelines, lanyards, pitons, carabineers, clamping wedges; safety devices for climbing sports, namely, safety harnesses, and safety restraints; ski goggles, goggles used in sports such as racquetball, basketball, swimming, football and soccer
