SEARCH

Inspection of representation of Trade Marks may, on payment of the prescribed fees, made at the Trade Marks Registry, between 9:00 a.m. to 3:00 p.m. Monday to Thursday (Except Friday from 9:00 a.m. to 1:00 p.m.).

APPLICATION NUMBERS

In each advertisement the number stated before the specification of goods indicates the number of the application.

OPPOSITION

Notice is hereby given that any person who has grounds of opposition to the registration of any of the marks advertised herein according to classes under the heading "Application Advertised before Registration" may, within two months from the date of this Journal, lodge Notice of Opposition on Form T.M-5 accompanied by the prescribed fee of Rs.6,000/-.

The period for lodging Notice of Opposition may be extended by the Registrar if he thinks so and upon such terms as he may direct.

Request for extension of time shall always bear the reference the name of prospective opponent and the number of Trade Marks, if any, to be made basis of opposition.

It is desirable that formal opposition should not be lodged until notice has been given by letter to the applicant for registration, so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice may be taken into account in considering any application by an opponent for an order of costs if the opposition is uncontested by the applicants.

NOTIFICATION

It is notified for general information that Form TM-1, must be completed in all respects and informations asked for must be provided. Instructions for Completions of TM-1, given on this form in the Rules should be followed. The instruction at (f) and (g) relating to user and signature are clear and noncompliance leads to over work for the Trade Marks Registry and un-necessary delay for the Applicants. Incomplete forms will not be received, and if received by POST will not be examined at their turn, till they are complete in all respects.

EXTENSION OF TIME

2. It has been observed that in opposition and Rectification cases, both the parties or their Agents/Advocates make requests on Form TM-56 for Extension of time, which are liberally granted to the parties. This practice not only delays the disposal of cases, but also results in accumulation of work. In order to discourage this practice, it is notified for general information that no unnecessary extension of time will be allowed except substantiated by cogent and convincing reasons and that mere collection of data or compilation of paper would not be sufficient reasons for asking such extension. All concerned should note and cooperate for early disposal of contested cases. Besides requests for extension of time in opposition cases must be accompanied by valid power of authorization, without which such requests are liable to be treated as un-authorized.

AUTHENTICATION OF FOREIGN DOCUMENTS AND POWER OF ATTORNEY.

3. It is notified for general information that all Foreign Documents and the Power of Attorneys shall be executed before, and authenticated by a Notary Public, or any Court, Judge, Magistrate, Consul or Vice Consul, or Representation of the Central Government as enumerated in Section 85 of the Evidence Act.

Goods or services: 9 Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; protective helmets for sports; glasses, sunglasses, sports glasses; software, games software; fuel pumps for service stations for fueling airplane engines; fuel distribution equipment, namely, metered fuel pumps, electrical fuel level gauges, control valves for regulating the flow of gases and fuel lines; automated fuel station management systems comprising computer operating software, metered fuel pumps, rate control panels, fuel lines and dispensing nozzles for fueling land and marine vehicles and marine vehicles and aircraft; gas meters; on-board and wayside signaling and communication systems, train inspection systems, cross warning systems, switchmachines; GPS - based tracking and monitoring systems for the railroad and transit industries; electrical devices and electrical power distribution products, namely, capacitors, circuit breakers, circuit breaker load centers, circuit closers, circuit interrupters, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles, electricity switchboards and switchboxes; computer software for, persons who troubleshoot and maintain programmable controllers, computer software for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels, computer software for use with medical patient monitoring equipment, computer software for receiving, processing, transmitting and displaying data, computer software for use in developing personalized asset allocation programs; computer software for use on-line which enables office equipment dealers to submit applications, manage portfolios and communicate with the company; computer software for use in accessing mortgage and insurance information, computer software for collecting data involving vital medical signs, computer software for use in electrical power systems analyses and instructional manual in electronic format sold as a unit therewith, computer software for use by employees for financial institutions for determining financial investments for clients and in processing the sale of the identified investments, computer software for obtaining information on the flood-hazard status of real property, computer software for the development of graphical user interfaces and data visualization, computer software for use in the calculation of mortgage payments, computer software for regulating and managing vehicle fleet maintenance services, computer software for use in connection with accessing and utilizing commercial computer services, computer software for use by customers to obtain lease portfolio information, computer software for a radiology information system for use by radiologists and radiology departments, computer software for use in the database management of employee and patient information for patient monitoring and archival purposes, computer software installed on and used in connection with PC's and medical monitoring equipment for graphical user interface, computer software for use in sending encrypted and compressed data over paging carrier systems, computer software for providing access to websites where buyers and sellers can conduct business electronically, and computer software for underground navigation namely for navigation of down hole probe assembly for oil drilling and drilling assemblies for routing underground utilities; electronic, nuclear, industrial and laboratory testing, measuring, computing and control instruments and apparatus; electrical goods, electrical power generation and distribution products and electrical voltage and overvoltage surge products, namely, arresters, busways; capacitors; lighting contactors;

controllers and input/output devices; fuses; lighting controls; switch boxes, LEDs, namely, light emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge suppressors, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, full-voltage manual starters, reduced voltage starters, electrical switches and disconnects, circuit board terminal blocks and pumping panels, circuit breakers and disconnects, transformers, electrical lighting and power circuit boards, electrical wires, cables, cords, and conductors, electrical wiring and fixtures, lightning arrestors, electricity meters, power meters, grounding resistors, humidity and temperature sensors; building and wood sensors; industrial calibration sensors, push buttons, motor control centers, electrical resistance heating wires and electrical controllers therefore and voltage regulators included in this class; software and software programs for industrial, research, and medical use; apparatus for electrophoresis; chromatography columns and pumps; apparatus for microfabrication; apparatus for bioinformatics systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; synthesis and purification integrated systems; apparatus manufacturing oligonucleotides; apparatus for microarrays; laser based optical systems for digital imaging; microarray slides; laboratory glassware; vials and microvials; microtitre plates; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; graphical user interface based computer programs for controlling machines in industrial automation applications; software for creating graphics displays and editing dynamic data interfaces for realtime graphics applications for industrial and business applications; communications software for connecting computer network users; software for plastic injection molding; software for control, monitoring, simulation, communications, data logging and collection, and factory automation; software to integrate manufacturing machine operations, control processes, provide data for visualization, track problems and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors; laptop computers, ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, display devices and terminals; computer whiteboards; system boards and processors; call control, operator interface, gage interfaces and data collectors; control and manufacturing applications, namely, statistical process control, data collection, distributed numerical control; manufacturing execution systems and document management; digital signal processing products and systems, namely industrial automation controls and programmable logic controllers; machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; distributed and remote input/output hardware devices, input/output modules, interface modules, power supplies and mounting hardware; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glassbreak sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hardwire sirens, audio speakers, electronic drivers, access control and alarm monitoring systems; fire, heat and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access door controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; cameras; closed circuit video systems; closed circuit video system comprising one or more cameras, and a camera housing; short range, wireless, radio frequency transceivers; power line transceivers; communication control hardware for operating closed circuit camera; communication control hardware, namely keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarm, management controls and triggers, and video transmission devices sold separately or as part of a system for operating closed circuit cameras; personal digital assistant devices configured for use by real estate professionals; communications interface devices for use with personal digital assistant devices; fiber-optic transmission systems, namely, fiber optic transmitters, receivers and transceivers used in the transmission of video, audio, and data signals over optical fiber; electrical switches; electro mechanical locks; magnetic locks; electric keys; handheld electronic hardware for receiving, controlling, storing, manipulating, displaying and transmitting data and for operating electronic locks; electronic access cards and readers and encoders therefore; magnetic access cards and readers and encoders therefore; smart

access cards and readers and encoders therefore; proximity cards and readers and encoders therefore; key fobs and readers and encoders therefore; bar code access cards and readers, encoders, card lamination apparatus; access keypads; radio frequency tracking tags; tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, inventory and individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefore, namely, control panels, access card readers, and equipment and systems for video imaging, video monitoring; digital hard drive recording, network transmission and remote access; networked digital video storage servers, access control and surveillance applications alarm monitoring and security; computer software and hardware for controlling and operating security and access system comprising locks, doors, access, and identification; devices and security enclosures in the nature of boxes for securing keys; surveillance equipment sold individually as components or together as a system comprising one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformers switches, splitters, coaxial cables, connectors, motion detectors, microphones and speakers; computer user interface software and control software for managing security, fire and access systems; electric locks; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locks; electronic key fobs, readers and encoders; data processing software and computer hardware; power supplies, namely batteries, rectifiers/voltage/current regulators and transformers; control panels, namely, electronic apparatuses adapted to electrically monitor a pre-determined activity and activate a burglar alarm; siren speakers; and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; control valves for water conditioning and water filtration equipment; bioreactors for culturing cells; portable analytical instruments namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, pulp and paper processing systems, fuel processing systems, and metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment-namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; electronic and electrochemical products, namely, fuel cells; apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, photovoltaic solar hybrid modules, electronic sensors for measuring solar radiation, solar cells; apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, systems, components, and all associated balance of system

components, printers, laser printers, ink jet printers, multifunction and all in one printers, parts for all the aforesaid goods; electronic handheld units for the wireless receipt and/or transmission of data that enable the user to keep track of or manage personal information and which may also have the capacity to transmit and receive voice, image and video communication; software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and software which enables and provides one-way and two-way wireless connectivity to data; portable digital electronic devices and software related thereto; handheld electronic devices for the wireless receipt and/or transmission of data; software for the redirection of messages, e-mail, and/or other data from a personal computer or a server to one or more handheld electronic devices; computer software and program for management and operation of wireless; telecommunications devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; computer software for sending and receiving short messages and electronic mail and for filtering non-text information from the data; handheld electronic devices for data, voice, image and video communication; computer game software for mobile handsets; electronic game software for mobile handsets; computer software, software packages; batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells; carbon, carbon rods for dry batteries, carbon rods for welding use; electric apparatus and instruments; wiring apparatus, connectors (electrical), electric cables, electrical conduits, floor ducts especially for housing electric cables, ballast (for discharge lamps), under carpet wiring systems, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, plugs (electrical), insulating materials, electric time switches, other wiring devices; signalling apparatus and instruments, video entry phones, intercom systems, electric door chimes, buzzers, fire alarms, gas leakage alarms, burglar alarms, portable emergency buzzers; acoustic machines and apparatus, radios, cassette tape players/recorders, radio cassette recorders, portable cassette tape players, compact disc players/recorders, mini disc players/recorders, mini disc decks, DVD (digital versatile disc) audio players/recorders, secure digital players/recorders, secure digital card, speakers, tuners, amplifiers, stereo component system, record players, graphic equalizers, clock radios, IC (integrated circuit) recorders, digital sound processors, headphones, earphone, microphones, sing-along cassette players/recorders, compact disc software (recorded), electric megaphones, language laboratories, car audio systems, public address systems, audio mixers, audio equipment cleaners, audio cable, video cable, other acoustic machines; audio-visual machines and apparatus, television receivers, cathode ray tube displays, cathode ray tubes, image pick up tubes, plasma television receivers, plasma displays, LCD (liquid crystal display) television receivers, liquid crystal displays, combined television receiver with video tape recorder, combined television receiver with disc player, antenna, tuners for satellite broadcasting, tuners for television, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, video CD (compact disc) software, DVD (digital versatile disc) video players/recorders, color video systems for large-scale display, cable television systems, hard disk drivers, video imagers, electric optical display boards, multi purpose electric display systems, closed circuit video equipment systems, DVD (digital versatile disc) software, television cameras, video switchers, non-linear editing systems, editing controller, DVD (digital versatile disc) authoring system, light emitting diode display, other audio-visual machines; optical-disc machines and apparatus; optical disc drives, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc mastering systems; communication machines and apparatus, facsimile transceivers, transceivers, telephones, cellular mobile telephones, carry case for cellular mobile telephone, telephone answering machines, private automatic branch switching systems, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communication systems, multi-channel access radio systems, electric traffic information boards, video teleconferencing systems, personal handy-phone systems, local area network systems, AV (audio/visual) codec (encoders/decoders), in-car navigation (route guidance system), electronic system for the collection of road tolls, GPS (global positioning system) antenna; checking (supervision) apparatus and (supervision) apparatus and instruments, electric door openers, communication and monitoring system for apartment buildings, intruder detection systems, automated system for monitoring and controlling functions within buildings, electric multi-layer security appliances; Goods or services: 9 Electronic, scientific, surveying, optical, weighing, measuring, signaling, and checking apparatus and instruments, namely, fiber optic meters, fiber optic instruments, namely, fiber optic light sources for use with fiber optic test meters, fiber optic patch cords, optically isolated USB and serial cables, optically isolated adapter for printers and remote control devices, optically isolated external trigger probes for use with electronic measures; electronic test and measuring instruments and devices and electronic test tools, namely, local area network electronic meters; electronic cable mapping units; digital troubleshooting systems comprised of computer hardware and software used to diagnose and analyze electronic devices and computer hardware; electronic meters for testing automotive electrical systems; current measuring clamps; cable testers; oscilloscopes; calibration instruments; data acquisition tools; digital multimeters; document process calibrators; cable testers; cable identification modules for use with cable testers; protective holsters for electronic meters; computer software and hardware for use in testing and isolating faults in digital circuitry; electric apparatus for measuring the insulation of wires, cables, transformers and electrical motors, frequency counters, high frequency probes, frequency synthesizers, frequency comparators; digital insulation multimeters; constant temperature calibration baths in the nature of metrology baths; Metrology dry-wells; furnaces for laboratory use, hygrometers, oscilloscopes, oscilloscope software for storing, retrieving, analyzing, and printing waveforms, measurement data, and harmonics; Apparatus and instruments for regulating, analyzing, and controlling electricity, temperature, humidity, and power, namely, current measuring clamps; electronic monitors and measuring devices, namely, electronic meters for analyzing the quality of electrical power, signal tracers for tracing and identifying electrical signals in electrical circuits and ultrasonic leak detectors; temperature profiling systems comprised of thermocouples and computer software for analyzing temperatures and logging data in the fields of electronics manufacturing, finishing, and food processing; measuring apparatus for temperature and humidity levels in gases and solid substances; thermocouples, thermocouple probes, thermometer readout devices comprised of thermometers and digital readout units; thermometer calibrators, temperature and humidity meters not for medical use; Apparatus and instruments for calibrating and measuring the accuracy of the calibration of other apparatus and instruments, namely, industrial calibration sensors, dry-block calibrators; electrical measuring and testing devices with electrical standards settings, namely, voltmeters, ammeters, and ohmmeters; portable oscilloscope devices, namely, integrated oscilloscope, multimeter, and paperless recording devices sold as a unit; diagnostic equipment, namely, an optical source and power meter for measuring optical loss in fiber optic cabling systems; measuring and calibrating instruments, namely, fluid flow calibrators and meters; Electronic circuit parts and accessories therefore, namely, adapters, digital circuit adapters, digital circuit connectors, cables, and digital circuit cables; test leads, rack mounts, voltmeter probes, oscilloscope probes, clips, cases and battery packs, and battery packs; meters, namely, temperature meters and microamp meters for monitoring heating ventilation air conditioning units; measuring apparatus for refrigerant leak detection, namely, electronic leak detection hardware and operating software; infrared thermometer for temperature measurement without contact; barometers; pressure calibrators; gage pressure modules; Pressure pumps for testing purposes, namely, hand operated pressure pumps, hydraulic pressure pumps and pneumatic pressure pumps; medical diagnostic simulators, namely, oxygen saturation simulators for testing pulse oximeters; surveying instruments; electrical testers, namely, voltage testers, electrical ground testers; electrical insulation testers; multimeters; digital multimeters; calibrators; Calibration software for automated calibration for use in calibration of test equipment, calibration management, calibration data, reporting, and analysis, calibration database creation, reporting, and management, calibration measuring and testing, calibration auditing, calibration asset management and reporting, translating computer procedure file formats, and writing computer procedure files; power quality meters; recorders,

namely, data logger for recording voltage, amperage, and power measurements, electronic and digital voltage and power quality recorders and voltage and power event recorders; Analyzers, namely, electronic analyzers for measuring and testing power, defibrillators, transcutaneous paces and intravenous pumps; Gas-flow analyzers; Safety equipment, namely, electronic electricity analyzers; timer analyzers, namely, electronic analyzers for measuring time, frequency and phase; Counter analyzers, namely, electronic analyzers for measuring time, frequency and phase; Incubator analyzers, namely, electronic analyzers for measuring incubator temperatures, humidity, sounds and airflow; Electronic nuclear medicine channel analyzers, namely, analyzers for measuring radiation levels not for medical use; Multi channel infusion analyzers for testing of infusion equipment; Electrosurgical analyzers for detecting and analyzing electricity, load, frequency and leaks in electrosurgical units; Air quality analyzers for measuring temperature, velocity, humidity, carbon dioxide, carbon monoxide, and airborne particle concentrations; Particle analyzers; Carbon monoxide analyzers for measuring carbon monoxide levels; Network analyzers for testing Asynchronous Transfer Mode (ATM), Digital Signal Level 3 (DS3), European Digital Signal Level 3 (E3) and/or fiber distributed data interface (FDDI) networks and equipment; Frequency standard devices, namely, oscillators used for frequency calibration; temperature devices, namely, temperature indicators, probes, sensors, transmitters, calibrators, and microprocessor-based infrared temperature measurement units comprised of thermometers and thermocouple probes; thermometers; thermometer probes for non-medical use; laboratory equipment, namely, temperature fluid baths; humidity meters; timers; time counters, namely, electronic tools for measuring time intervals, time rise and fall, time periods, duty factor, frequency, pulse width, count totalization and phase; Ratio counters, namely, electronic tools for measuring frequency ratios, voltage ratios, infrared ratios, calibration test ratios, temperature ratios and resistance ratios; frequency counters, frequency burst counters; Pulse width counters, namely, instruments used to test and measure the exposure time of x-rays; Voltage counters and meters, namely, tools to count voltage, continuity and current; Rise and fall time counters; Electronic data loggers, namely, data acquisition instruments for collecting, storing, monitoring and analyzing equipment performance data comprised of hardware, software and portable and/or networked data logging acquisition units; Clamp meters; Electric current probes; Current clamps, namely, electrical current clamps for testing and measuring electricity, currents and voltage; process calibrators; Air quality measurement instruments, namely, electronic monitors for measuring temperature, velocity, humidity, carbon monoxide, carbon dioxide, air velocity, air flow, air pressure and differential pressure; Air quality particulate measurement instruments, namely, particle counters and electronic particle source locators; Electronic based instruments for measuring temperature and humidity levels; Phase rotation meters; infrared and thermal imagers not for medical use; infrared temperature measurement instruments, namely, temperature sensors; thermal imagers not for medical use and parts and accessories thereto; Handheld and desktop computer hardware and software for testing, analyzing, mapping, and reporting on the performance and quality of local area network (LAN), wide area network (WAN), and virtual private network (VPN) network connections and enterprise networks; Computer hardware and software for analyzing the capacity and expansion of computer local area networks (LAN); Electrical recording, testing and measuring instruments, namely, network analyzers; electronic circuit boards, acoustic meters, and cable connectors for use with computer local and global area networks and other cabling systems; Integrated network maintenance instrument designed for use in installing and maintaining local area wired and wireless networks, namely, a network analyzer; Computer software for monitoring and analyzing hardware and software problems that occur within computer networks, computer systems and software applications; Copper cable testers and analyzers; fiber cable testers and analyzers; wireless network analyzers; Telecommunication instruments, hardware, and software, namely, telecommunication adapters; Telecommunications line testing instruments and troubleshooting devices, namely, telecommunications hardware and software; telecommunications test sets, namely, apparatus for use by communications service providers to test voice and/or data signals transmitted by telephone lines; Biomedical test instrumentation and software, namely, automated biomedical equipment test systems comprised of hardware, software, and data recorders for monitoring and inspecting the performance and electrical safety of biomedical equipment; Medical testing equipment, namely, blood pressure simulators and patient simulators for use in testing medical equipment; Electronic pressure monitors, namely, atmospheric or barometric pressure monitors; thermo-hygrometers; ultrasound watt meters; Electronic gas flow analyzer, namely, hardware and software for analyzing gas flow in ventilators; clinical laboratory testing equipment, namely, test lungs used to test functionality of ventilator equipment; clamp meter accessories, namely, electrical testing leads, electrical current probes, rogowski based current probes, inductive current probes, Hall effect current probes, and electrical connectors in the nature of crocodile, alligator, bus bar, and piercing test clips, sold separately or as a unit with clamp

meters for measuring electricity; computer hardware for the foregoing goods, specifically excluding computer network routers or Ethernet hubs; computer peripherals; specially adapted cases for the foregoing goods; mounting racks for the foregoing goods; all of the foregoing goods sold separately or in various combinations; being goods included in class 09.
